

INSTITUTE OF CODING SKILLS BOOTCAMPS

IoCSkillsBootcamps.co.uk

Designed for people who are ready for A Levels or NVQs
(teaching is at levels 3, 4 and 5)

The IoC-led Skills Bootcamps will connect 1,700 people nationwide into employment

Gain new tech skills in 16 weeks or less, get help preparing for an interview and connect with local employers

ABOUT SKILLS BOOTCAMPS

Skills Bootcamps are **flexible courses of up to 16 weeks** that give people the opportunity to build up tech skills and provide **expert help reaching an interview** with a local employer. They are being developed by the Government as part of the Plan for Jobs.

They are designed for people who want to upskill quickly to work in **specific tech-driven sectors** (e.g. construction or web development) or for those who want to **gain in-demand digital skills applicable to multiple areas** (e.g. data science).

In addition to the Institute of Coding's (IoC) existing provision, which includes **150+ university level digital skills courses**, IoC partners are delivering **26 new Skills Bootcamps nationwide, with many options available online.**

Skills Bootcamps will be provided at **no cost for learners who meet the eligibility criteria** and are accepted onto a specific programme. If you would like to see how a Skills Bootcamp could **help you boost your employability**, please visit our website to learn more.

TOPICS INCLUDE

-  Core digital skills
-  Data science
-  Software development
-  Artificial intelligence
-  Cybersecurity
-  Creative computing
